WHY HYGEN™?

REMOVE MICROBES TO ENSURE SUPERIOR CLEANING

Traditional disposable products lack scrubbing power, streak and smear, and cannot remove microbes, leaving behind a food source for live pathogens. Rubbermaid HYGEN™ Disposable Microfibre eliminates the food source and combines superior microfibre with built-in scrubber technology, in a disposable application, to prevent cross-transmission.

Built-In Scrubbers
Innovative microbe-removing technology is complemented with built-in zigzag scrubbers to effectively remove dirt without streaking or smearing.
